ProGuard Product Data

ProGuard Met-Protect LT **Product Data Sheet**

ProGuard Met-Protect LT is a rust preventative that is formulated to provide excellent long term protection - minimum of one year outdoor storage protection to eliminate the need for reapplication of protective coatings.

ProGuard Met-Protect LT is a solvent based indoor/outdoor rust preventative and is intended for use on component parts or finished assemblies and equipment to provide indoor/outdoor long term storage protection for ferrous metals.

ProGuard Met-Protect LT can be applied with dip, spray, flow on or brush equipment. This product can be cleaned with solvents or heavy duty alkaline cleaners.

Typical Characteristics:
