

## ProGuard Protap

**ProGuard** Protap is designed for difficult cutting and tapping applications where superior cling and viscosity are required. **ProGuard** Protap performs extremely well on ALL metals including Aluminum, Stainless Steel, exotic alloys and cast iron.

**ProGuard** Protap incorporates a unique lubricant and emulsifier which allows residues to be rinsed off with mild alkaline cleaners, or even plain water.

Advantages	<ul> <li>Long Lasting - Does not evapo</li> <li>Silicone Free</li> <li>Clings to the Tool</li> <li>Non-Staining</li> <li>Increased Tool Life</li> <li>Superior Lubricity</li> <li>Water-rinseable</li> </ul>	<ul> <li>Improved Finish</li> <li>Excellent Corrosion Inhibition</li> <li>Leaves a Protective Film</li> <li>Applicable to all Metals</li> <li>Operator Friendly</li> <li>Mild Pleasant Odor</li> </ul>
Applications		y to the cutting tool using a brush, oil can or other used for drilling, tapping, reaming, milling, bing, and blanking of all metals. Apply <b>ProGuard Protap</b> directly to the cutting tool using brush, oil can, or other convenient applicator. Add 25 - 50% <b>ProGuard Protap</b> to straight or sulfur-
		based petroleum cutting oils.
Typical Properties	<b>ProGuard</b> Protap Product Code Number Appearance Odor Residual Film Specific Gravity @ 60° F Lbs/Gallon Flash Point, °F, ASTM D-	9.67 +/- 0.1
