Product Information

ProGuard R.V. and Marine Antifreeze

ProGuard R.V. and Marine Antifreeze is formulated for marine engine cooling systems and potable (drinking) water and plumbing systems to winterize for winter storage.

ProGuard Marine Antifreeze can be ordered as a concentrate, -50 burst, -100 burst, or 50/50. **ProGuard R.V. Antifreeze** can be ordered as a concentrate, -50 burst or as -100 burst. Both products can be used to winterize boats, recreational vehicles, vacation homes, swimming pools and a variety of other winter storage applications. Corrosion inhibitors have been added to prevent damage to metal engine components and seals.

Both are safe for brass, aluminum, steel, copper and plastic pipes (except acetate). All the ingredients are considered by the Food and Drug Administration as GRAS (Generally Regarded as Safe).
